YOUR PICC UPDATE **18.11.14**

ISSUE NO: 80

FREE HEALTH CHECK

Don't forget - there is child minding available when you go for your free health check.

You can see the doctor in peace and quiet while your kids are looked after by qualified PICC staff.

Help us close the gap!

Risk Management Framework Workshop

PICC board member Paul Travis joined staff member Mark McCann to facilitate a Risk Management Framework Workshop at the PICC Beach House on Palm Island.

In what was a very successful initiative, everyone who attended enjoyed the

workshop activities which included practical exercises and working in teams to identify possible situations that could present a risk to staff and clients alike.

The workshop is in support of the recently introduced Risk Management Framework which is designed to minimise and better

manage the staff and client exposure to risk.

The workshop was so successful that we will be running another one in the near future at the Diversionary Service. Make sure you register your interest in the next workshop with you supervisor ASAP as numbers are limited.
